

THINK TWICE. CLICK WISE.

Dangers of Cyber Predators

Cyber Predators often use social media apps to manipulate and exploit young or vulnerable users. Grooming often starts with:

- Flattery
- Fake Identities (catfishing)
- Gradual desensitization to inappropriate content
- Isolating the victim from friends or family

Privacy Risks

- Personal information (location, school, workplace, etc.) can be misused for stalking, scams, or identity theft.
- Even deleted posts can be screenshotted and shared without your consent.

Speak Up & Stand Together

- Cyberbullying includes:
- Mean messages or comments
 - Spreading rumors
 - Posting embarrassing photos/videos
 - Exclusion from group chats
- If you or someone you know is experiencing cyberbullying, reach out to:
- A trusted adult or teacher
 - School counselor or mental health professional
 - Child protection helplines
