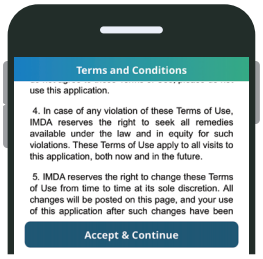
Find out more at go.gov.sg/ConnectWSGx

STEP 1 Install the Wireless@SGx app on your mobile phone

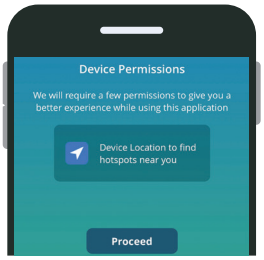
Go to the **Apple App Store** or **Google Play Store** to download the Wireless@SGx App and launch the application.

1. Click '**Let's Go**' to start the configuration on your mobile phone.



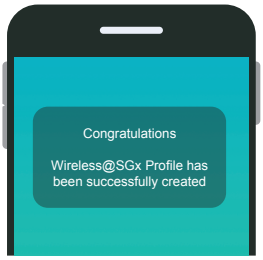
2. Read the Terms and Conditions and click '**Accept & Continue**'.

STEP 2A Set up Wireless@SGx connection on mobile phones with SIM cards



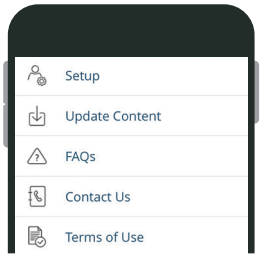
3. Allow the app to access your location.

***iOS users** will be redirected to install a Wi-Fi profile in their devices. Follow the prompts to complete the configuration*



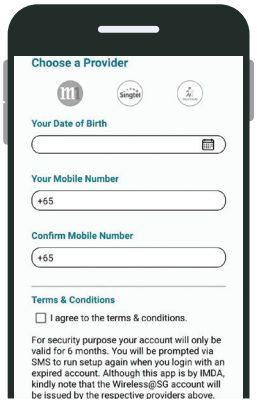
The illustrations above are taken from iPhone interface.

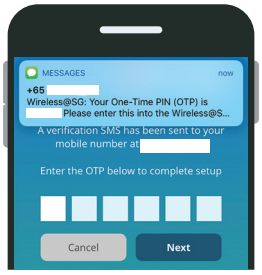
STEP 2B Set up Wireless@SGx connection on mobile phones without SIM cards



4. In the app, select "More" and "Setup".

Choose any service provider and enter your date of birth and local mobile number.





5. Complete the registration by entering the One-Time-Pin (OTP) that you received via SMS.

Cyber security tips *(Credit: Cyber Security Agency of Singapore)*

- **Log out** of your Wi-Fi connection or accounts after use.
- **Clear** browser's cache and internet history after each session.
- **Beware** of "free" Wi-Fi hotspots masquerading as a legitimate source. Once you have set up Wireless@SGx, you should not manually connect to any Wireless@SG network, and instead let the device connect automatically to the legitimate Wireless@SGx network.
